our work helps make the nation safer

CONUS OPPORTUNITIES

Degreed Professional Positions

- Aircraft External Load Analysts
- Aircraft Stress Analysis Engineers
- Aircraft Structural Design Engineers
- Airworthiness Engineers w/Structures Certification
- Systems Integration Engineers
- Systems Engineers (IT/IS)
- Avionics Engineers
- Battle Management C3I/C4I
- Flight Test Engineers
- Electronic Warfare Engineers
- Industrial Security Representatives
- Instrumentation/Display Engineers
- All-Source Intelligence Analysts
- Logistics Engineers (Brigade level experience and above)
- CONOPS/Military Operations Research Engineers
- Software Engineers
- Satellite Systems Engineers
- Technical Editors/Writers
- Cost Estimators
- Special Access Program Analysts

Non-Degreed Technical Positions

- Fighter Aircraft Avionics Technicians
- Aircraft/Production Operations
- Computer Operators
- Data/Telemetry/Link-16 Systems Technicians
- Flight Test Technicians
- Electronics Warfare Technicians
- Instrumentation Technicians
- AEGIS SPY Radar Technicians
- Aircraft Sheet Metal Mechanics (airframe and power plant preferred)
- SIGINT/MASINT Signal Analysts
- Mechanical/Electrical Technicians
- IT Network Support Technicians

Vocational Positions

- Field & Service Mechanics
- Physical Security Professionals/Guards
- Administrative
- CAD Operators
- Maintenance Workers
- Construction Workers
- Drivers
- Logistics
- HVAC Mechanics

OCONUS POSITIONS

- Intel Analysts
- Special Operations
- Field & Service Mechanics
- Physical Security Professionals/Guards
- Administrative
- Maintenance Workers
- Construction Workers
- Drivers
- Logistics
- Electricians
- HVAC Mechanics
- Generator Mechanics
- Plumbers
- Facilities
- CAD Operators

Note: All OCONUS positions require a current, active Secret or Top Secret security clearance.

LOCKHEED MARTIN

Let's begin working on your exciting Lockheed Martin career.

For more information and to apply, visit our Web site: **www.lockheedmartin.com/careers** and click on "Transitioning Military." This will also provide details about the hiring events in which we participate across the country. Or, contact your on-base Transition Center.

An Equal Opportunity Employer

LOCKHEED MARTIN

powered by innovation

guided by integrity

everything is possible.

Careers for Transitioning Military Personnel

inclusion is one of our defining strengths

Transfer your leadership, knowledge and skills to another leading outfit.

At Lockheed Martin, we are known for integrating systems that make our nation safer. For shaping the latest technologies that redefine defense and national security. And for applying the highest ethics and visionary thinking. These are the same strengths you applied in your military career — and the very skills you will contribute as a member of our team.

We invite you to bring your future to one of the foremost systems engineering, software, and systems integration companies in the world.

A wealth of transitioning experience and resources.

When you are launching your next career from the military to the private sector, it helps to have someone in your corner who knows the way. At Lockheed Martin, we are highly experienced in military career transitioning. Over 30,000 of our current employees are former military personnel. Also consider: Specially dedicated recruiters, Military Relationship Managers who understand your needs • Our regular visits to military bases, attendance at transitioning military job fairs, and partnerships with on-base transition centers • Our participation in the Army Spouse Employment Program • PaYS (Partnership for Youth Success).

All this is our way of demonstrating our appreciation for your military service, our support for your individual transition, and our ability to offer distinctly promising private sector careers.

Great places to live and work.

Many choices for your aspirations.

Lockheed Martin Aeronautics Company

Excel with today's most brilliant minds in the design, building and support of the world's most sophisticated military aircraft. The challenges here redefine what is possible in advanced aircraft design, production, modification, support, stealth technology and systems integration. Your involvement may include: The F-35 Joint Strike Fighter (JSF) • The F-16 • The C-130J • The F-117 • The F/A-22 • Classified contracts for various special mission aircraft • and other key challenges.

Lockheed Martin Integrated Systems & Solutions

Be at the forefront of delivering network-centric systems. You will advance technologies that integrate systems, sensors, people and platforms to enable joint operations and informed, real-time decision-making by Defense, Intelligence and Homeland Security customers.

Areas of focus include:

- Integrated command, control, communications, intelligence, surveillance and reconnaissance systems
- Advanced Modeling & Simulation
- Imagery & Geospatial Solutions and Satellite-centric information systems
- Homeland Security and public sector IT solutions
- and beyond

Lockheed Martin Space Systems

The challenges here encompass a broad portfolio of innovations and technologies that are laying the foundation for future space systems.

Programs include:

- The most advanced telecommunications satellites for government, civil and commercial interests
- Commercial remote sensing technologies
- Classified systems for Intelligence and national programs
- Airborne and missile defense technologies
- Submarine-launched ballistic missiles
- Complex information systems supporting critical Intelligence missions
- Spacecraft for planetary exploration…

Lockheed Martin Electronic Systems

Your involvement may include maritime systems and sensors, missiles and fire control programs/platforms, or training and transportation solutions. Within these areas, we have established ourselves as the leader in integrating large systems-of-systems to provide the best solutions including:

- Naval radar, electronics and surveillance systems
- Land, sea and theater missile defense systems
- Air traffic systems
- Homeland Security solutions
- Tactical missiles, precision-guided weapons and launch systems
- DoD and commercial software…

Lockheed Martin Information & Technology Services

Redefine the promise and potential of software and technology in such areas as:

- E-commerce and supercomputing
- Telecommunications and enterprise business systems
- Stewardship of U.S. and U.K. atomic weapons programs
- C4I and surveillance systems for DoD and classified programs
- Aircraft avionics upgrades
- Information analysis for Intelligence, civil and commercial arenas
- Information technology for Homeland Security
- and more

A Total Value package.

There is much to be said about the Lockheed Martin Total Value package. It is specifically designed to help you realize your professional and personal best…to achieve all that you can imagine. Part of the package involves nurturing your growth through a commitment to develop top talent from within, and through access to a wide range of training programs and services.

Diversity and inclusion: What we believe…what we live.

You will thrive in an environment that welcomes, respects and develops our individual differences as a competitive strength. It begins with our core values of Ethics, Excellence, "Can-Do" Attitude, Integrity, People and Teamwork. It extends to every activity that involves attracting and retaining a talented workforce that reflects the diversity of our customers, our suppliers and our world. That's the difference between stating our commitment to diversity and inclusion — and living it.
